OUR INVESTMENT

ABANDONED AND NEGLECTED CHILDREN are the world's most vulnerable people, especially when they live in impoverished areas (566 million children globally according to the United Nations). These vulnerable children often:

- » Lack permanent parental figures to provide shelter, nutrition and emotional security.
- » Quit school to help their families earn additional income, foregoing secondary education and minimizing their long-term job opportunities.
- » Are susceptible to joining gangs, prostitution, human trafficking, violence and continuing the cycle of poverty.
- » Live in areas without the private and public resources necessary to adequately address the root causes of systemic poverty.

UNITY 4 ORPHANS impacts the lives of vulnerable, impoverished children by providing the following long-term support through local partners who are embedded in the communities they serve:

- » **EDUCATION:** English as a Second Language (ESL) and other instruction which presents a pathway to better job opportunities and a more secure future.
- » **HEALING:** Reversing the course of potentially life-altering damage through therapy and counseling to heal from childhood trauma such as abandonment, poverty, abuse and violence.
- » **NUTRITION:** Access to nutritious food and clean drinking water to promote health and vitality to uplift and encourage progress.
- » **PLAY:** Building healthy social interactions with vulnerable children through weekly program visits and periodic service trips to orphanages in Tijuana, Mexico.
- » **SHELTER:** Investing in school buildings, orphanages, homes and basic infrastructure so that children and families have a safe and secure place to learn and live.

MEET ANDREA!

Andrea has been a student in our ESL program in Nicaragua for nearly 4 years. Her teachers saw obvious potential in her because she takes her ESL classes very seriously. A lack of support at home, likely due to generational poverty, however, was holding her back. Andrea was able to begin meeting with a counselor through U4O's Healing 4 Change program. As a result, Andrea's confidence is increasing, and she's also started helping other students in her class. The combination of education skills and counseling services are teaching Andrea to be an advocate for herself, and to dream about a future outside of the fishing village.

THANK YOU FOR YOUR SUPPORTING OUR MISSION
